George and his team are truly one of a kind. Our painters ended up cancelling on us last minute and we needed our walls re-painted as soon as possible. George and his team were very flexible with their schedule and came to our office the day of to scope out the work. Needless to say, he and his team did a fantastic job and repainted our entire office in 2 days. They also very kindly went out of their way to take chip samples of the paint on our walls to make sure they had the right paint color. They are fast and efficient and really take pride in their work.

We will definitely be using George and his team again in the near future and highly recommend him.

Thank you.

Emma Sapper
