AIX EN PROVENCE

To whom it may concern,

This past summer, I was referred to Sandoukas Painting through my broker as I was looking to put my duplex on the market.

I was sent a comprehensive proposal detailing the work that would be done, along with a timeframe for how long it would take. After agreeing on the scope of work, George and Jimmy's team came in carefully to cover all surfaces neatly before painting. They repaired everything throughout the apartment, and at the end of the job, everything was neatly put away, and the apartment was clean.

George and his team were always quick to respond to my questions. If something extra needed to be done, they were able to accommodate everything additional promptly.

I recommend Sandoukas Painting to anyone who wants a paint job done by a team that cares about the work they produce and has an eye for the smaller details that make a difference.

Thank you,
Frederic Fekkai
