

TITUSS BURGESS

To Whom it may Concern,

George Sandoukas and his team are an extraordinary bunch of people, who will not rest until the job is completed.

After receiving multiple quotes stating that it would take a week to complete this project, I was promised by George and his team that it would be done in the span of 2 days. Needless to say, his team did whatever was needed of them and got the work done on time.

George and his men were extremely careful in setting everything up, and respected all personal items by working carefully to ensure the safety of everything.

Any questions that I had before, during or even after the job, George was able to respond and help me out with whatever was necessary. He is extremely knowledgeable and gave me many insights on things I didn't know or understand about the job.

When working with me on completing the project, George let me know from the beginning that he wasn't there just to make a quick buck, and did his best to work with us on pricing. He let me know about more cost efficient options for completing this project. He was honest about wanting the best for me, and didn't try to oversell anything that he was doing when improving my home.

I am extremely grateful for everything that George has been able to accomplish for me, far exceeding my expectations from how I thought this project was going to go. I highly would recommend George to anyone in need of a paint job, as you really will not be able to find better in this city.
